

Sunday

Dear Papa,

Ive [sic] have gotten back from Riley all O. K. and am all pretty goad too to have some of the comforts of home again after living in tents for six weeks a larger part of which time it rained. How goes everything with you. [sic] Haven't any very recent news from the family as more of the other boys are rather poor correspondents notwithstanding the fine example I set them. There is not much in the way of news around these parts, who could expect any news from Kansas though this has certainly been a grand year out here, a few such years would see the much abused "Kansas farmer" rolling in [?] opulence. Navy team doesn't seem to be doing very much this year for which I am sorry for my football sympathies are with the "blue and old gold" color. I think [?] may be back at the academy this fall. Where are the N. Y. boys living. [sic]. Haven't heard much of their doings for a long while. Am very glad you had such a pleasant trip and are in such good health. Hope you will write soon and tell me about things in the "effete." Hope that Will can come out here sometime this fall. Good bye for the present always

Affty

Jamie
