

My dear Cousin Buch

Your very nice letter reached me and I so much appreciate all your good wishes which I know are so genuine. Yes I am going to live in Maryland. Nothing but a southerner in a southern land would have suited me. We all look forward to your coming up and want you to stop right here with us. You will pardon an upset house however please. Can you not arrange to come up a few days before so we can see something of you. Let us know what date you think you can come. With much love from all and looking forward to seeing you – believe me –

Affectionately

Jessie.
