Dr. sir

I do no hear from Brown yet but am liable to any day. I think I will have Goodman quitclaim are undivided 2/3 part of lot No. 18 to Fowler & my self & then we will all join in the Warantee deed to you and will do as you suggest in regard to the W in Woodmans name. I dont know whether Brown knows where the sand beach is but he can like learn by some party's near him. I am very sure it is quite a little so of your No East- Corner & between that a line from South Island to nearest shore. I think it nor or Northwest from the So Island and perhaps 200 or more feet of your No East shore corner.

I am very sure that all our shore in your vicinity is very bold. Will execute & send deed as soon as hear from Brown.

Very Truly Yours

T. S. Coolidge

[Sketch of lot showing shore line]

The above may give an idea where I think the sand beach is. I am not sure whether the Water is deep or not between the So Island & shore but So of there I think it very bold. If you should want next season or any time another acre more or less to straiten your North line I have no doubt but we can agree as the price & terms.
