Our regiment is very helthey and very little sickness in it we had but one death in our regment since we left Camp Curtin and that a very sudden one he got up in the morning and wash himself and eat his breakfast and dinner at three o clock he was a corps the desese is unknowing. you speek of the war that you cant here much of it and so that is the case with us we dont know as much as you folks does for we dont get to here of what we are going to do until we are marched wright off and then we dont know ware war going to until we stop. we haved got a store in our camp at this present time and we can get most anything we want out of it [Phare] bought a bowe knight for \$150 and I am getting a revolver and then I am a going to give the [Secessioner] hell with them and I will fight till I die four the Union yesteday was the first time that I was out on picket and we was out for 24 ours before we returned to our camp we was out on the hunt of some Secessions and we had no luck in finding any but we found a plenty of fruit and corn and chickens and so you can think that we are not a going to starve just yet and the camp laws is very strict here if anione dont behave here and is found out that he does any thing rong his hands is tied and a chain and ball locked fast to his legs and he must carry them for 24 ours before taking off the ball and chain waights 27 lbs and that is a good load for one to carry 24 ours hard times for bad boys and so that will make them all good boys I have very good times here we drill only twice a day and that is only one our at a time and just to take your muskate on you shoulder and go two ours a day and that is now hard work last sunday we had breaching in our camp and we was all tending to it and it was very nice 2 like to see such things on the sabeth I send the little girles a nice song and I want them to lern it till I come home so that they can sing it to me
