Biographical and Historical Note:

Harold B. Morrin was born on 20 May 1923 in Bird-in-Hand, Pennsylvania. He was the son of Hugh B. and Hilda M. (Erisman) Morrin. His father, Hugh, passed away at an early age from complications associated with exposure to mustard gas during his service in World War I. In his 20s, Harold enlisted in the United States Army from 1943 to 1946 during World War II. During this time he sent letters to his mother Hilda M. Morrin about his life in the army, traveling, and social activities (the collection of correspondence can be found in MG0358_S01).

LancasterHistory

Harold graduated with a degree in business from Franklin and Marshall College. During his career, he served as president of the Lancaster Chapter of Administrative Management and served on the board of the National Association of Accountants. In 1985, Harold retired as secretary- treasurer of Lancaster Press and Tapsco companies. In addition to his career, Harold was also very active in the community, serving in leadership positions in many organizations. He was a member (since 1947) and past president of the Millersville Lions Club, an international service organization that provides humanitarian and volunteer services to the local community. Other involvements included the Lancaster County Philatelic Society (national stamp collection organization), North Museum Associates (local nature and science museum), the Millersville Borough Council, Lancaster County Wildlife Rehabilitation Center, Lancaster County Elementary Envirothon, Boy Scouts of America (Troop 45), past director of the Tanger Arboretum, member of the Hamilton Park United Church of Christ, Millersville pool committee, zone chairman, steering committee, board member of the Millersville Bicentennial celebration and the Lancaster County Bird Club (LCBC) (LCBC 2012).

Harold was recognized as one of the “101 of the Most Vital People in South Central PA” in the local APPRISE magazine where he was pictured on the cover in 1988. It would seem as though Harold had no time for hobbies or travel with his career and community involvement but that was not the case. Harold was an avid baseball fan, seeing games in 45 major league ballparks throughout the United States. He even witnessed Babe Ruth play!

His other two passions, birding and traveling, went hand in hand. It was not until the age of 31 that Harold began birding. In 1954, he decided to start the journey of a life-list and in that first year he was able to add 70 species to the list. By the time he finished, Harold had over 3,800 species on his life-list. Harold enjoyed traveling and documented his trips with daily journal entries and species checklists of all the bird species seen. He birded in all 50 U.S. states and Canada and traveled to all 7 continents during his lifetime.

Harold's love for birds, nature and travel continued to grow thus, his participation in the Lancaster County Bird Club grew. Harold served as president from 1972-76 and again from 1984-85, and a member of the bird club's Board of Directors for over 20 years. He was also an editor for the LCBC newsletter for many years and editor of *The Natural Attractions of Lancaster County*, published by the LCBC in November 1977 as a supplement to “Call Notes” which included articles about the flora and fauna found in numerous areas of Lancaster County. Harold also edited and wrote portions of the book, *A Guide to the Birds of Lancaster County, Pennsylvania* (1984) and assisted with the second edition in 1991. He authored *Birding the 49th State: An Alaskan Saga* in 1978 about his birding adventures on an Alaskan trip. In his later years, Harold led a weekly adult birding group in collaboration with the Lancaster County Parks

Department. On February 9, 2001 the LCBC Board of Directors made Harold an honorary lifetime member of the club, an honor bestowed to only a few since the inception of the club. At this time they also decided to rename the Scholarship Program, "The Harold B. Morrin Scholarship Award" (LCBC 2012).

The Lancaster County Bird Club credits Harold with the development and growth of the club as one of the largest and most active bird clubs in the mid-Atlantic region. He inspired many renowned birders, ornithologists and photographers like Andrew Mack, Eric Witmer, Theodore A. Parker III, Jeffrey Lepore and Kenn Kaufman. On January 7, 2012 Harold passed away at the age of 88. His impact on the community was immeasurable and he is remembered by many as a "humble, selfless man, who devoted so much of his time and effort to others" (Crale 1999).
