Assessments in 1773 were: Provincial total 3575-£, 10-s, 6-d, and County Tax Tax 672-£, 11s, 7-d.

Note: It is rather surprising to know that in those times the people paid six times as much state or rather provincial tax and they paid county tax.

The relative importance, financially, of the various townships and of the Boro of Lancaster also may cause surprise. The value of Earl Township was just about the same as that of Lancaster Boro. Next to Earl Township our wealthiest townships in their order were Cocalico, Leacock, Lampeter, Salsbury, Strasburg and Warwick, etc.
